## CREATING OPPORTUNITIES... BUILDING NATION!!

[www.fii.org.in](http://www.fii.org.in)

Federation of Indian Industry (FII), a not-for-profit organization started in 2014, has in short span of time emerged as a premier national chamber and a trustworthy bridge between policy makers and industry. FII initially started with small team led by eminent industrialist & philanthropist, Sh. Deepak Jain now has its network across 12 Indian States and in several countries. FII is working towards development, promotion and increasing the competitive capacities of the industry, service sector as well as startups. FII also works as a bridge between public sector & private sector entities. It serves as an advisory, regulatory, consultative and supportive body for the government and business institutions.

## VISION FOR USD 5 TRILLION ECONOMY... TURNING DREAMS INTO REALITY

## Key Focus Areas of FII

### Enabling Global Footprints

Today, the opportunities to expand internationally are better than they ever have been before. Conducting business globally has become an essential part of the overall strategy for many businesses. FII advises on vital information related to Government incentives, tax laws, customs regulations, and cultural/ political/ business environment of the host country.

### Make In India

The Global investors are watching India with a great interest after the launch of "Make in India" initiative by the Indian Prime Minister, Shri Narendra Modi. At FII, we advise and extend our assistance to ensure a smooth sailing for the Government /Companies across the globe to make investment and set up factories and expand their facilities in India.

### Ease of Doing Business

One of our objectives is to help various State Governments by emphasizing the areas of business regulation that need attention; underlining a few unproductive, redundant, wasteful processes & laws already prevalent in the system and suggesting possible alteration in Laws & Processes for the progression and nurturing of the business friendly environment.

### State Industrial Policy

FII is equipped to advise on multiple investment location options for a business project like, special economic zones, country specific zones, industrial estates, etc. We are also enabling investors to overcome delays in getting licenses, company incorporation, land acquisition, and other necessary procedures & approvals.

### Entrepreneurial Skill Development & Startup Support

India's demographic dividend, which is both, the leading opportunity and the demanding challenge, for the country. FII provides a coordinated effort in skill development initiatives across the country. We conduct series of skill workshops and developmental programs aimed at professional & self-employment. We support academic institutions to develop and strengthen startup ecosystem and help startups connect with investor community.

### Advice on Taxation Policy

Companies are affected by a multitude of tax issues. FII provides an analytical guidance and comprehensive advice on double taxation and tax structuring to Governments and companies.

## *Message from Director-General*

Dear Friends,

Welcome all!

India is one of the fastest growing economies in the World. India's gross domestic product is estimated to reach US\$ 5 trillion by FY-24 and achieve upper-middle income status due to several initiatives taken by the current Government. India is an attractive destination for outsourcing. It has several advantages over other growing economies. Indians are conversant with English language as it is one of the official languages. The cost of living is low; gross domestic product per capita is half that of underdeveloped countries. This, combined with the high level of education, attracts other countries to choose India as investment destination. People in India come from a wide range of economic and cultural backgrounds and socioeconomic status. Investment through Foreign direct investment route in Indian companies can be very profitable. India has ample purchasing power which will definitely drive consumer spending and economic growth. Humongous growth in industrial sectors such as energy, health care etc. is an indicator of economic growth potential of India.

The current government is working towards creating a stable business environment and removed arbitrariness in decision-making. The government's vision is to create a globally competitive industry and services base equipped with skill, speed and scale. Reforms like GST, Company incorporation, allotment of statutory numbers etc and abolishment of 1400 old laws and Acts is helping propel Indian economy into a high growth trajectory. These efforts have yielded results and India's ranking has improved significantly in terms of ease of doing business and several other indexes.

Federation of Indian Industry is committed to providing support to the initiatives by the Govt. of India. Our program "Business Opportunities in India" is designed to provide linkages to the Global Business Community which would encourage their strong economic bonds with India. We have taken due care to provide sectoral coverage and coverage to the initiatives by various states in this program. We hope that this initiative by FII would provide a strong reason to the Global Businesses to remain connected with Bharat.

Another successful initiative by FII is the newsletter which has its readership base in 145 countries of the world.

Prime Minister Modi has initiated ambitious program to drive India towards \$ 5 trillion economy by 2024. Apparently, it could appear to be a very far fetched idea but while going into details it looks like achievable. Theme of this Conference is to explore the ways and means towards achieving \$ 5 trillion dollar economy. Not only it will give massive boost to the economic fortunes of the Country, but it would provide a newfound self confidence to India as a whole.

Yes, we can do it and we can achieve it. The Vision and the zeal with which the country is moving forward would definitely keep the momentum going. I welcome all of you attending this event and to those who are sending their blessings for this event. I convey my big thanks to all of them.

**Deepak Jain**  
Director - General

## VISION FOR USD 5 TRILLION ECONOMY... TURNING DREAMS INTO REALITY

"Talks on 5 trillion dollar economy have not come all of a sudden. Our country has strengthened itself so much in the last five years that we can aim to achieve such goals. Every group that can enable the economy in keeping the target of USD 5 trillion economy at the centre of its plans and talks are happening in several sectors. These discussions are positive. Credit for every achieved target goes to the people and not to the government."

*- Narendra Modi, Prime Minister India*

"It took over 55 years for the Indian economy to reach 1 trillion dollars but when the country and her people's hearts are filled with hope, we in 5 years added 1 trillion dollar. Today, we are nearing 3 trillion dollar level. If we can appreciate our citizens' goals of human pursuit filled with their inherent desire to progress led by dedicated leadership, the target is eminently achievable."

*- N. Sitharaman, Union Minister for Finance India*

"India is the best place to invest in. It's the place, where you get both, a competitive edge, and a huge domestic market aspiring for a better quality of life."

*- Piyush Goyal, Union Minister for Commerce India*

"Our country has plenty of resources and production capacity. I see India's future in the leaders of younger generation who can turn difficulties and challenges into opportunities. Exports will be encouraged by focusing on increasing the participation of Micro, Small and Medium Enterprises (MSMEs) in the development."

*- Nitin Gadkari, Minister for MSME India*
